Facilities Maintenance

Pinpoint, Plan, Prevent

For the continuous health of your property

Protect your commercial assets with the Nelson Thomas planned preventative maintenance service.

Pinpoint Diagnose existing issues and ongoing requirements

Plan Detail an ongoing programme of works

Prevent Execute the facilities maintenance schedule

Safety, efficiency and compliance

Perfectly maintained buildings need detailed and planned preventative maintenance programmes. Agreed at the beginning of every facilities maintenance services contract and reviewed on a yearly basis, our team of operatives follow the agreed schedule of works to meet safety and compliance standards and maximise the efficient running of your offices.

Your assets in expert hands

Ensure your building is well cared for, from floor to ceiling and beyond, contact our planned preventative maintenance team today to arrange a site visit.

Building Repairs

React, Respond, Repair

Minimise disruption, maximise safety

The Nelson Thomas Reactive Maintenance team provide speedy solutions to all unforeseen property damage, nationwide.

Fixing property problems fast

To ensure speedy repairs our property maintenance team are available 24/7.

Once maintenance requirements are received and logged the building repairs are assessed for urgency, service disruption, site critical damage and individual SLAs are consulted. Work is then matched with a Nelson Thomas Operative and repairs scheduled.

Expect speed, efficiency and expertise from initial contact through to final repair.

Minimise disruption and downtime caused by unexpected damage, contact the Nelson Thomas Reactive Maintenance team today.
